Summary

12× Salesforce-Certified Professional with 4+ years of experience bridging business strategy, CRM process design, and analytics. Delivered Salesforce Data, Sales, and Marketing Cloud enhancements and Tableau dashboards supporting sales, distribution, and marketing teams, owning delivery from discovery and requirements through UAT, release management, and post-go-live adoption in regulated and data sensitive environments.

Professional Experience

Fred Alger & Company

Mar 2026 – Present

Salesforce Business Analyst

New York, NY, US

- Aligned CRM, Data Cloud, and Tableau delivery with sales priorities by partnering with the VP of Sales and CDO on roadmap prioritization.
- Built unified profiles in Data Cloud for personalization outreach by ingesting and harmonizing data from external systems and CRM source.
- Delivered 10+ Salesforce enhancements through Apex and Flows, validating functionality through 50+ test cases, UAT, and release signoffs.
- Developed Regional Managers dashboard and daily dashboard to enable sales performance tracking and supported recurring reporting.
- Automated monthly compensation calculations for RDs, ARDs, and RAs by configuring Xactly rules across territories zones, and products.

Deloitte Consulting

Sept 2021 – Aug 2024

Business Analyst

Hyderabad, TG, India

Client: Travelers Insurance

- Owned end-to-end delivery for 15+ Salesforce enhancements supporting 2,000+ users across insurance business teams.
- Automated annual sales planning for 1,200+ users by replacing Excel workflows with Salesforce Flows, approvals, and Lightning experiences, reducing manual effort and improving governance.
- Led UAT execution by designing 200+ test cases, managing defect triage, and coordinating cross-team release signoffs.
- Coordinated 20+ CI/CD releases across AutoRabit, Copado, and Salesforce deployments, managing readiness, and hypercare.
- Gathered and documented 100+ requirements across BRDs, FRDs, epics, user stories, and acceptance criteria.
- Supported Salesforce security and access design across profiles, permission sets, validation rules, and sharing controls.
- Built 30+ leadership-ready CRM reports and dashboards for pipeline tracking, sales planning, and performance insights.
- Managed Jira backlog hygiene and handled 10+ Confluence pages, maintaining sprint artifacts and process updates.
- Honors:** Deloitte Applause Award (Oct 2022), Spot Awards (May 2023, Dec 2023, May 2024)

Internship Experience

Risepoint

June 2025 – Sept 2025

Marketing and Ops Intern – Partner Strategy and Analytics

Boston, MA, US

- Led analytics delivery across 9 university partners; analyzed Salesforce Marketing data to quantify YoY trends and campaign impact.
- Defined performance metrics for Operational and Functional KPIs, creating a data dictionary to enable consistent partner reporting.
- Gathered requirements and built Tableau self-service funnel/KPI dashboards for 1,500+ enterprise users, reducing support tickets by 15% YoY and enabling Marketing Managers to self-serve Operational KPIs (vs. raising analytics support tickets)

FourBlock Veteran Career Readiness

Jan 2025 – Apr 2025

Business Analytics Intern

Boston, MA, US

- Managed a team of 4 to conduct exploratory data analysis (EDA) on 5 years of Salesforce Education cloud data.
- Designed and deployed pre- and post-program surveys; analyzed response rates, KPI movement, program lift, and retention signals.
- Honors:** Certificate of Excellence (Apr 2025)
